WHY?

The Project “**ACT!**” aims to respond to one of the great challenges confronting European Nations and their welfare systems in the near future: the growing need for care and assistance by an ever increasing ageing population.

The goal is to contribute towards the development of **innovative welfare solutions**: the focus is on strengthening the interconnection among all actors involved in the care relation within the domestic environment: the dependent person, paid care professionals and civil society, in turn composed of family carers, active citizens and volunteers.
