

# The transnational mobility in Italy

SCF model

# SCUOLA CENTRALE FORMAZIONE and the Transnational Mobility

- ▶ Scuola Centrale Formazione is a no-profit organisation, recognised by the Italian Ministry of Labour, born in 1975, joins together 45 organisations managing about **100 VET centres** distributed in **11 regions** from the North, to the South of Italy.
- ▶ Since 2001 SCF has been promoting different initiatives for the valorisation of the transnational mobility as part of a consolidated mission, giving to thousands of young people, trainers, teachers and staff the possibility to carry out a mobility experience abroad.
- ▶ This activity steadily increased led SCF firstly to publish a research about the ECVET methodological framework applied to transnational mobility pathways (**GORES Mobility Experience** - Tools for the valorization of the learning outcomes in the transnational learning mobility and then to obtain the **VET Mobility Charter**. Thus the intense work in the field of coordination, management and organization of transnational mobility goes hand in hand with the research and study work on the various topics concerning this sector.

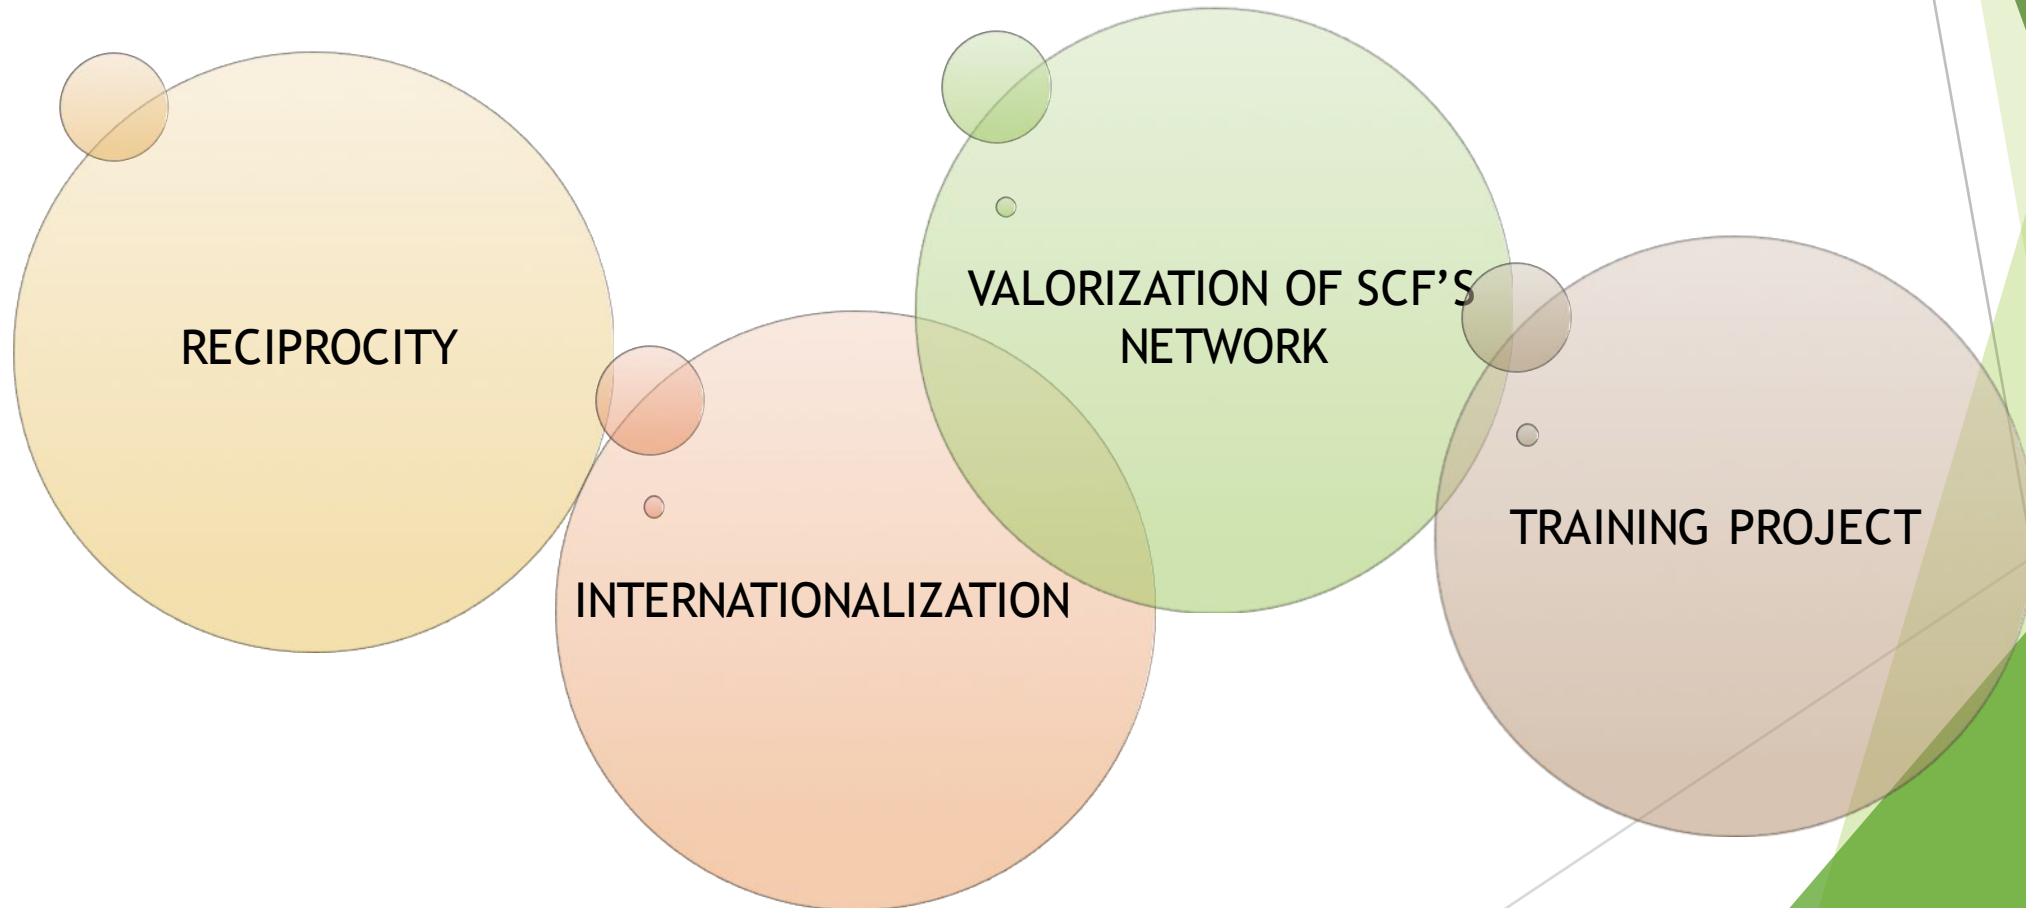

# ITACA COOPERATIVE

- ▶ ITACA is a cooperative founded in 2008, on the initiative of Scuola Centrale Formazione, from a project, funded in Sicily, to promote an innovative methodology of transition to work for disadvantaged people and the long-term unemployed. Over the years, thanks to its participation in several projects, both at national and European level, it has strengthened its skills in the design and management of training and transversal actions.
- ▶ Since 2014, Itaca has been coordinating and managing European exchanges for young people and adults.

# SCF model

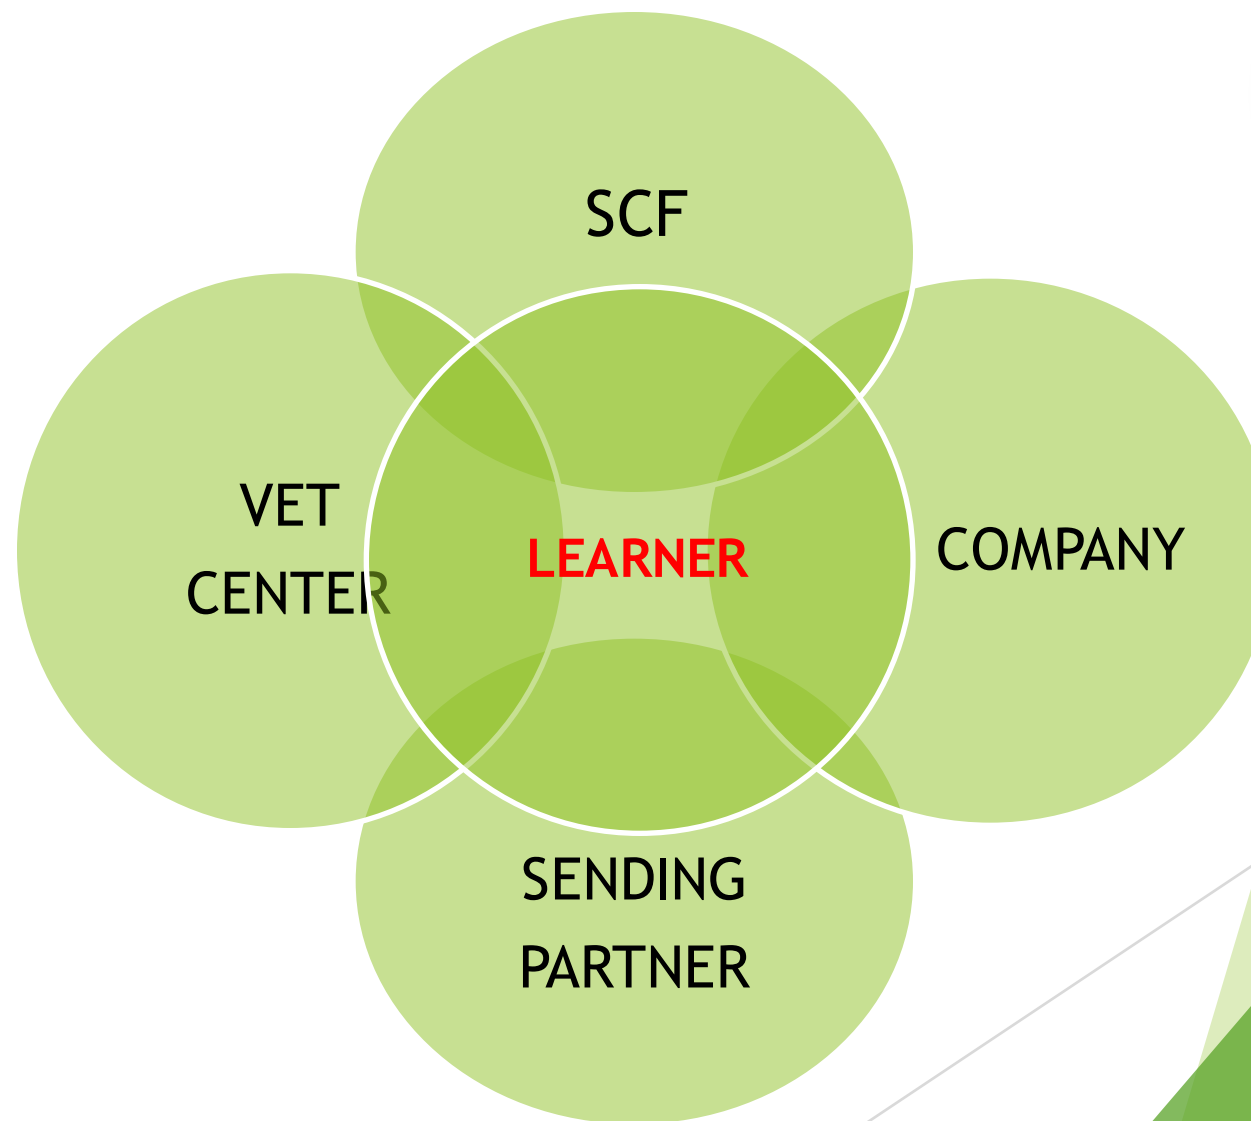

The strong bond between Scuola Centrale Formazione and Ithaca has led to the development of a management model of the mobility experiences in Italy very attentive to the personal needs and growth of the young people and of the staff involved, that we called SCF Model and that is based on 4 fundamental principles:

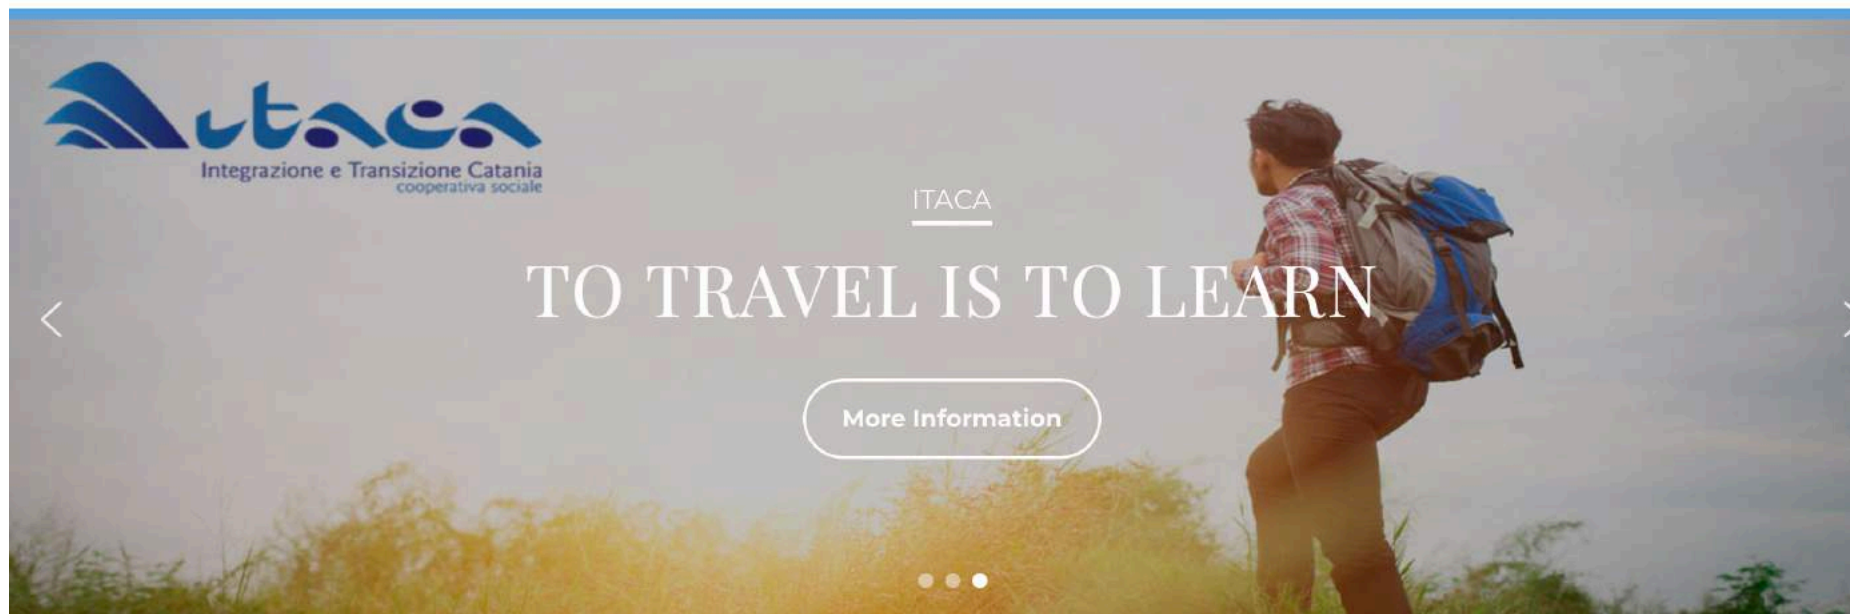

# HOW IT WORKS

The activity coordinated by SCF and Itaca is managed on-site, by the various professional training centers identified from time to time among those present within the network, on the basis of the professional profiles of the students who ask to have a professional internship experience in Italy.

ITACA is a cooperative founded in 2008, on the initiative of the Scuola Centrale Formazione, from a project funded in Sicilian Region to promote an innovative methodology of transition to work for disadvantaged people and long-term unemployed.

Over the years, thanks to its participation in various projects, both at national and European level, it has strengthened its skills

”

Thanks for your attention!
