

23 NOVEMBER – 06 DECEMBER

# LYON

SHORT TERM MOBILITY

The background image shows a modern building with a facade made of large, colorful rectangular panels in shades of blue, grey, and brown, creating a pixelated or mosaic effect. Below this, there are several wooden triangular structures. In the foreground, a paved courtyard with a curved path and green grass contains several wooden picnic tables. A person is sitting on a bench in the foreground, looking towards the building. Other people are sitting at picnic tables in the background.

# THE PROJECT

The project consisted in creating one or more bags using **recycled materials** and **Festival of Lights** themed.

The activities included analyzing the materials, using sewing machines, and understanding the different stages of production.
